EXPERIENCE

Full Stack Development — Student

- **[Search FORE Golf]** (HTML, CSS, JS) - interactive UI that returns golf course and weather data via API
- **[NFL Bets]** (HTML, CSS, JS, MySQL2, Sequelize, Express.JS, Bcrypt, Bootstrap, Axios, Express Handlebars) - interactive betting website where clients can login to create a profile, place W/L Bets, and track their favorite teams game schedule all season long.
- **[GOLF guidance]** (HTML, CSS, JS, Express.js, MongoDB, REST, GraphQL) - interactive UI that currently in version one acts as a golf course stats API with simple tips for registered users as well as a small merchandise store. Later versions will allow a user to log scorecards to the database via a PWA.

HTML CSS JAVASCRIPT API MySQL REACT.js GitHub MongoDB
GraphQL JSON JQuery Materialize Bootstrap

VOLUNTEER WORK

Created a Facebook group named `Encontrar Mi Familia` in 2009 networking Paraguayan adoptees. After successfully locating my own biological family I connected the group with my lawyer Daniel Varela and helped to reconnect over 10 adoptees with their biological families via the group.

AWARDS

J Wood Platt Caddie Scholarship via Philadelphia Cricket Club

J Wood Platt Caddie of the Year 2013
